Zen void hums with lust lust lust
Soul scented like a sherbet rush
Oh how it climbs up my spine
Rings in my body like a thousand chimes

This is excitement oh so fine
You got me feeling like I'm divine
But later this will fade away
Let's hope our love lasts, radiates

I pretend to be you in my mind
Perfect body so fine fine fine
Got me fixed for time time time
Your my Passion your my leisure
And your mine mine mine

Electric waves of lust lust lust
I'm in love, I'm in love your a drug
Don't want to rush rush rush this too much
I need to be you while I'm feeling this good

Don't want seconds, minutes long
I want you hours and hours of fun
I Hear you playing that sexy song
I want to make you cum cum cum

I like sexy is this how you feel?
You look so good is this real?
In your voice every tone is such bliss
It makes me feel like I'm lost in your kiss

Ethereal sensations are delicately worn
Every move is relaxation and contentment with form
Bathed in this comfort it's oh so nice
I have to repeat it this is my vice

Every word the look on your face
Penetrates my mind and makes love in that space
Yum yum yum so lush lush lush
Tickle me with your sonic touch

Lick me with your look of love
It feels too good it's all good it's all good
Far too much oh I would oh I would
But for me it's enough it's enough

This sensual overload what's your taste in touch
What does she wear when your looking so good
Laid there with her toys let's hear them buzz
Begging to make herself feel good

All alone with nowhere to do
Your form teaches pleasures and guides me through
Playing together there this is what we do
I want to feel sensational too

Zen void hums with lust lust lust
Soul scented like a sherbet rush
But later this will fade away
Let's hope our love lasts, radiates
