[ VERSE 1: The E ]

Now let's get started, let me break it down to a new track

It's the Funky Payback on wax

Some MC's thought I slipped

How that sound, bro, y'all can't get with E

Yo, here comes a change of pace, a change of tune

A change of deck, played at your end with the last track

And some of y'all still wanna come for some

And get diddy-diddy-done, son

Cool like The Mack, in fact I'm ready to attack

The wick-wick-wick wack, now clap

To the funky track that I brung ya

Laced with bass and funky lyrics that I sung ya

1-2-3 or is it 3-2-1

Call me E or just son of a gun

Cause every time I play with words in this way

MC's in the place, they think it's okay

For them to run up and get played like an ass

Sometimes I go slow, sometimes I go fast

But I last longer than the average Jack

So yo, here's the Funky Payback

(Time to get busy, this is my payback)

[ VERSE 2: The E ]

Verse 2 kinda keeps the head shakin

Cause of the lyrics that I gunnin when I'm breakin

All over MC's that be tryin to riff

You need to get a grip or else get stripped

Of that title that you so-called got

You ain't that hot, your ryme's a flop

So where's your disc jock?

But you still wanna run up, so what up punk?

I serve that ass real fast from the jump

Yo, you're nothin but a runner, son of a (chill!)

But I told em, now watch me scold em

To a groove that improve as it soothes

It kinda makes you wanna move cause it's smooth

It's that type of hype, so believe it

Brought by the Boss and the E

With the funky little track for the wack

To show you that I'm stacked

Here's the Funky Payback

[ VERSE 3: The E ]

My style is complete with a hype track

I'm new but not a new jack

I heard that stuff that you're callin rap

Give me a reason to acknowledge you as a fly MC

You're not original, you're w-a-c  
Which means wack to the point that you lack  
Self-esteem and motivation, here's a new verse  
You heard the title and you thought I might curse  
Like I said last record, get a hearse  
Cause it gets much worse when I emcee  
There's not a new jack swing that can get with E  
As far as I know, I steadily flow and grow  
That's why I'm down with the O-  
G Style in effect and I'm housin  
I'm on point while them suckers be loungin  
Did a little show, now you think you're a star  
But I know you're not up to my par  
Yo, how could you sit back and talk that  
Talk you talk when you know you ain't all that  
You should think before you get in my mix  
Cause I serve you soft MC's for kicks  
But you still don't seem to get the point  
So we hyped up this track to flaunt  
Somethin kinda funky to inject as the page turns  
I'm not concerned, you'll learn while I burn  
As I put pen to paper, smoother than a caper  
You heard "Catch 'Em Slippin'" and caught vapors  
Here's a track for the wack to show you that I'm stacked  
Called the Funky Payback
