There's no one here
But I can feel you around
I want to hear but you're not making a sound
I'm all alone and there's nothing to do so I...

Never been here this just won't be the same
Take something from me maybe I'll miss it again
I'm all alone and there's nothing to do so I...

Tell me tell me what do I see
Tell me tell me one more time
Tell me what do I see

I've been sleeping for a long time
And I don't know when I'll wake up
Shake me pinch me again
Cuz I'm not worried anymore

I've been sleeping for a long time
And I don't know when i'll wake up
Shake me pinch me again

They came for me so I sit down on the floor
It's getting cold but I won't open the door
I'm all alone and there's nothing to do so I...

There's nothing more in here so I'm letting go
I can't believe I'm never gonna know
I'm all alone and there's nothing to do so I...

Tell me tell me what do I see
Tell me tell me one more time
Tell me what do I see

I've been sleeping for a long time
And I don't know when I'll wake up
Shake me pinch me again
Cuz I'm not worried anymore
