"Shy Gun"

Visit "[Shy Gun](#)" on MotoLyrics.com

Baby see you on the street
Walkin' like you wanna be the coolest kid
You just think you're really tough
But do you think you got enough to play with me
To play with me

Okay let's see how to do it
C'mon baby
Let's get down to it
Give it to me

People say you're really a child
"You're lucky that you're still alive"
What do they mean? (Do they mean)
Catching peoples unaware
Makin' trouble everywhere
A Mean Machine

So buddy,
You can do it, how to do it
Give me all that you've got
Take a seat
What you got you gotta do
Let's go run to it
One, two, three

So pull the tigger and be a shy gun
I'll make you see that you're not the sly one
C'mon and show me the best that you've got
Love is a loaded gun
So pull the tigger and be a shy gun
I'll shoot the low one, you shoot the high one
C'mon and show me the best that you've got
Love is a loaded gun

You just make a lot of noise
You break the hearts of other boys
Out on the streets (On the street)
You just think you're really tough
Do you think you've got enough to deal with me (to deal
with me)

So buddy,
You can do it, how to do it
Give me all that you've got
Take a seat
What you got you gotta do
Let's go run to it
One, two, three

So pull the tigger and be a shy gun
I'll make you see that you're not the sly one
C'mon and show me the best that you've got
Love is a loaded gun
So pull the tigger and be a shy gun
I'll shoot the low one, you shoot the high one
C'mon and show me the best that you've got
Love is a loaded gun
