Closer... so close baby  
Yeah, yeah, yeah

There we were, tenth grade in the hallways  
I must admit you were the finest thing in all ways  
Every day I used to walk you to class, do you remember  
that?  
We used to make each other laugh and had each  
others back  
We had the same birthdays and shared the same  
dreams  
You used to love when I treated you for ice cream  
Saturdays, we would meet up at the movies  
It was you, your little sister, and your home girl Lucy  
I used to trip when you would always be with me  
Cause your mom would get mad when I would send  
you home with hickies  
And if she ever caught me around the house  
You'€™™ d be grounded for a month without a phone  
to call out  
Now, that's okay, we would meet up at the benches  
See it was all good when I didn'€™™ t have detention  
And if I didn'€™™ t mention we were friends from the  
start  
There was nothing in the way that ever keep us apart

Closer and closer, after all this time (so close baby)  
You'€™™ re still in my life (yeah, yeah, yeah, yeah,  
yeah)  
And over and over, your love stays on my mind  
(you'€™™ re on my mind girl)  
The memory of you still shines

I wont forget the day when you went off to college  
You had big dreams and you were out to seek the  
knowledge  
I had a record deal, we started doing shows  
And you wouldn'€™™ t even trip when girls would pull  
on my clothes  
We saved our money and bought a house up out the  
neighborhood

And now we'Â€Â™ re happy here together and  
it'Â€Â™ s all good  
Inbetween the sheets covered up real close  
And making love is what you love doing real most  
You said you wanted one kid, I said I wanted two  
A boy and girl, and that would equal me and you  
Sharing dreams while caught up in this moonlight  
I never argued and never once caused a fight  
Respect was the main key to our relation  
Going on trips and spending three week vacations  
We lived it up like real lovers were supposed to do  
Now come here lady, I wanna get close to you

Closer and closer, after all this time (so close baby)  
You'Â€Â™ re still in my life (yeah, yeah, yeah, yeah,  
yeah)  
And over and over, your love stays on my mind  
(you'Â€Â™ re on my mind girl)  
The memory of you still shines

It'Â€Â™ s been a long twenty years now and we got  
plenty more  
And ain'Â€Â™ t no telling what the future has for us in  
store  
A couple more kids or maybe even grandchildren  
See little ODM'Â€Â™ s growing up making millions  
Making us proud while our name will live on forever  
Same club, one mind, it'Â€Â™ ll come together  
Remaining strong, as strong as our familia  
Mi amor, mi corazon, y mi vida

After all these years and after all these tears  
The memory of you still shines  
After all these years and after all these tears  
The memory of you still shines
