So draw me a pretty picture  
This is what your crayons are made for  
So I'll pencil in my heart  
For you to colour in sometime  
Your my bigger picture and I'll draw you any day  
With imagination dear I'll find us a place to stay  
And get away from this town  
That lacks the colour that makes me want to stay  
You my bigger picture and I really wanted you to stay  
Get up, get up, get up it's time  
To leave the past behind us  
Get up, get up, get up it's time? to move on
