See right through all the things you say
Pretty green eyes
And such great legs
Look at the curves
Just to impress
Heart flying logos out of her chest

This is a story about a boy
That's me
And the story 'bout a girl
That's you.
This is the story about a boy
That's me.
And a girl

Cause I just wanna take you home
Cause I just wanna take you home
And I just wanna take you home
And I just wanna take you home.

Can't really ease it, it's so upon
Drive by shootings in your own back yard
Whoever said that became to come by
Was so off

This is a story about a boy
That's me
And the story 'bout a girl
That's you.
This is the story about a boy
That's me.
And a girl

Cause I just wanna take you home
Cause I just wanna take you home
And I just wanna take you home
And I just wanna take you home.
