The night smells like december
And we're deep undercovers
Staking out what could
Be better than all the money in the world

And im watching u and im waiting
For the perfect time to start
Participating and u signal me to stay
But i open my mouth any way

But it's over were gonners
Its out of our control
And if there's one thing that i know
Its that it's best to just let it roll
So lets just let it roll

Ur hazel eyes paralyze my senses
Cut me down to size defenseless
Im defenseless
And i know it's late but im waiting
For the moment that ive been anticipating
And i signal u to go where it will take us i don't know

But it's over were gonners
Its out of our control
And if there's one thing that i know
Its that it's best to just let it roll
So lets just let it roll

Just don't waste ur night before it started
Make sure im worth every single second Yea!!!

And now it's over were gonners
Its out of our control
And if there's one thing that i know
Its that it's best to just let it roll
So lets just let it roll

And now it's over were gonners
Its out of our control
And if there's one thing that i know
Its that it's best to just let it roll

So lets just let it roll
