Verse 1:

Stay here for a while and tell me  
What we've done so wrong all this time  
Cause all I can recall is how innocent we were

I blocked out the pain and all our mistakes  
So I don't feel a thing  
And all I can do is pray for something  
Deeper to hold on to

Chorus:

The damage has been done  
Do me a favor, just move on  
I wanna feel something that stays  
Something more than just my pain  
Cause I can't sit here locked up by myself  
Give me a second chance  
And I will prove that I won't fail

Verse 2:

Words don't explain just how I feel  
When you're this far away  
When will I ever really let this go?

You drug me to the very bottom of  
Your selfish compromise  
All I wanna do is pray for something  
Deeper to hold on to

Chorus:

The damage has been done  
Do me a favor, just move on  
I wanna feel something that stays  
Something more than just my pain  
Cause I can't sit here locked up by myself  
Give me a second chance  
And I will prove that I won't fail

Bridge:

I'd like to find my way back home  
Some walks you have to take alone

Don't need you by my side at all  
I'm done, I'm moving on

Chorus:

The damage has been done  
Do me a favor, just move on  
I wanna feel something that stays  
Something more than just my pain  
Cause I can't sit here locked up by myself  
Give me a second chance  
And I will prove that I won't fail
