Verse 1:

You need to hold on to something true
The odds are against your every move
Break the chains held over you
Don't let it go, we'll make it through

Every day just feels the same
Sick of playing this old game
Will we ever see the light?
Won't stop, we will fight

Chorus:

The voids are closing in on your heart
Take my hand and I'll pull you through
These empty shadows
Healing will cover all the bleeding
Don't give in, keep breathing
We'll make it through these empty shadows

Verse 2:

Too weak to move, too tired to speak
Is there someone who can set you free?
Take the pain from deep inside
I know one day you'll be alright

Every day just feels the same
Sick of playing this old game
Will we ever see the light?
Won't stop, we will fight

Chorus:

The voids are closing in on your heart
Take my hand and I'll pull you through
These empty shadows
Healing will cover all the bleeding
Don't give in, keep breathing
We'll make it through these empty shadows

Bridge:(I won't give up tonight
Won't you save me?
Every time I wake up feeling empty

What else can I do?
I will run to you

Chorus:
The voids are closing in on your heart
Take my hand and I'll pull you through
These empty shadows
Healing will cover all the bleeding
Don't give in, keep breathing
We'll make it through these empty shadows
