Of Verona
"Match"

Don't want to say it out loud
Not sure I like how it sounds
But I need you so much
That's it's breaking me down

So I'll say it now
Before I get too proud
When I think of your touch
I want to live in your mouth

Think you reached this message in error
When you lie in the dark, know that I see

Chorus:
It was good for me
With your thigh on my knee
Your hand in my hair
We were everywhere
It was good for me
Pure ecstasy
Both pleasure and pain
Rolled into the same

(You know it was good for me)

Verse 2:
Do you know what you've done
Do you know who I've become
Was an angel I think
With a devilish side

Think I need to hear a forever
When I lie in the dark
Just know that I see

Chorus:
It was good for me
With your thigh on my knee
Your hand in my hair
We were everywhere
It was good for me

Pure ecstasy
Both pleasure and pain
Rolled into the same

I was the match
I was the match
I was the match
That lit you on fire

I was the match
I was the match
I was the match
That lit you on fire
