We've been living in the shadows
waiting for our time
Year by year nothing seems to change
Expectations, money or dreams
Now there's nothing left of those dreams
Revenge's taking place
I want to take back
the part of life stolen cause of your lies

We took the road to fuck-all-land
and there's where we are
No remorse in our hearts
No sorrow, just pride

We're the Secret Army

Football, crime, skins and punks
take place into scene
We are a bomb about to explode
For all the pain that you have caused
The laws are made to chain us well
and keep your status there
We are the misfits raising our voice
We are the ones who didn't have a choice

We took the road to fuck-all-land
and there's where we are
No remorse in our hearts
No sorrow, just pride

We're the Secret Army
