You spend most of the time in the spot light
.. your career took flight , I let my card down
Still you can't ,, my first is .. put it on my verse
We were , then he hurt you and I feel you
I did the same bullshit it killed you
I wish I could go back in time and rescue the real you
Are you too good now .. tour with Chris Brown
I guess .. I am pretty
Got my windows down by the love
I am alone in the dark
I don't know where to stop cause she is .. me apart
How did we fell apart ..and I try to stop the crying
Bu the bitch keeps remind me what I can't escape
Promise to lay her , had a problem with ..
No my nice is on the floor I can't take this no more
Please tell me it was real when all I cared was yours
.. you bitch drive me crazy and I hate you
Tell me that I .. that will ease the pain
Ever since our last kiss I have been , breathless with
our last words
Got my windows down by the love
I am alone in the dark
I don't know where to stop cause she is .. me apart
How did we feel apart .. be the way it goes I am still
sitting here alone
