Now, let the day  
Just slip away  
So the dark night may watch over you  
Velvet, blue  
Silent, true  
It embraces your heart and your soul  
Nocturne

Never cry - never sigh  
You don't have to wonder why  
Always be - always see  
Come and dream the night with me  
Nocturne

Have no fear  
When the night draws near  
And fills you with dreams and desire  
Like a child asleep  
So warm, so deep  
You will find me there waiting for you  
Nocturne

We will fly - claim the sky  
We don't have to wonder why  
Always see - always be  
Come and dream the night with me  
Nocturne

Though darkness lay  
It will give way  
When the dark night delivers the day  
Nocturne
