Chorus:

Free
How will we be
Free
If we don't know reality
Free
When will we see
Free
Things not like they seem to be

I saw a girl
With a broken heart
Mend the heart of another
I saw a boy
Who had no heart
Lifting out to help his brother

Chorus

I saw a man
Without no home
Giving shelter to another
I know of people
Without hope
Giving strength to each other

Chorus

Bridge:
How can I be
When there are places that I've seen
People sin to be free
People kill to be free
Don't let me go on
Can you help me
Can you tell me what's going on
Everybody needs to be

Chorus
