So turn the music down
im tired of talking really loud
i got just one last thing to say

lets just drive across the country
just drive me to the coast
lets just drive across the country
just drive me to the coast

its just that
im sick this
sick of here
sick of everyone
and everything around

lets just start over now
somewhere else
the coastal city - such a view

and you wont regret a thing
its not like something is keeping you from me
and you wont miss a thing
about this place
about today

so turn the music down
im tired of talking really loud
i got just one last thing to say

lets just drive across the country
just drive me to the coast
lets just drive across the country
just drive me to the coast

lets just drive across the country
just drive me to the coast
lets just drive across the country
just drive me to the coast

lets just drive across the country

lets just drive across the country

just drive me to the coast...
