we died for you, for you,  
just not to give a second glance, second glance,  
but i know, i know, i know,  
you'll be back again  
for me to ruin you, for you to destroy me  
love is our motto, love is you and me

and i still wonder if your day's well spent  
where you go and where you'll be,  
kill the man it's been so long, he hasn't slept,  
and his bloodshot eyes are killing me,  
but don't go out tonight for the fear of messing up  
you put another scar in his heart, another scar in his  
heart,  
and i know, i know, i know, just exactly what you were  
trying to say to me  
to say, to...

tonight we're all sick for love's sake  
for all shame, he's shown we'll all break  
and lie down, and die again for another embrace  
for another embrace.

and i still wonder of the where you rest your head,  
where your eyes close, where you lay  
kill the story, kill the song, forget her face  
no more bloodshot eyes that rain  
don't go to sleep tonight for the fear of waking up  
in someone else's arms, someone else's arms  
but i know, and i know, i know, just exactly what you  
were trying to say to me  
to say, to...

tonight we're all sick for love's sake  
for all shame, he's shown we'll all break  
and lie down, and die again for another embrace  
for another embrace.

and you shot eyes that have broken my soul  
a wintery glance that cut me in two  
but i still walk around and wonder where you'll be,  
and then, and then i sing

that i know, that i know, i know, just exactly what you  
were trying to say to me  
that i know, that i know, i know, just exactly what you  
were trying to say to me

true love all you brag about  
i don't feel true love  
[repeat]
