I've got no friends, not one
I'm a sad and lonely little boy
I've got no friends, not one
Not a single little friend in the world
and I go out on my own, stand on my own
and dance to The Smiths on my own

I've got no friends, not one
I'm a sad and lonely little girl
I've got no friends, not one
Not a single little friend in the world
I walk home on my own, sleep on my own
Never take a kiss take in

I'm much too old and twee
A girl like that will never fancy me
I'm just a minor and a geek
That boy probably thinks that I'm a freak

Oh no he's looking over here
She's looking at me
I think he's trying to talk to me

Can I be your friend? be a sweet friend
I'll be the sweetest little friend in the world
Oh no just friends, that means
that he really doesn't fancy me

We could share one drink all night
and dance to The Smiths
But I'll still be walking home on my own

Yeah we will be friends, we'll be sweet friends
We'll be the sweetest little friends in the world
Yeah we will be friends, we'll be really close friends
Closer than anybody can and we'll watch Top Of The
Pops
Dance lots and lots and never ever ever grow up
Yeah we're just friends
