Cellophane flowers never happened for me  
Been sleeping the day off  
Watching the night fall  
Covering nowhere  
Filling my time share

There's a woman in the mirror in a firey state  
As she motions to me I start turning away  
She's lifting her dress up  
Trying to keep up

Oh you'd be surprised  
How we race  
While our lives  
Erased

Another moon on an everyday night  
Thinking the morning looking for alright  
Warming the blood flow  
With poison I don't know why

Maybe the rain stops following me  
Dripping the colors  
Running the daylight  
Over the cloud burst  
Hoping they don't burst

Right before my eyes  
Erased  
Our lives  
Erased

We know we're lost we're lost we're nowhere now  
We know we're lost we're lost we're nowhere now  
Now we know we're lost and nowhere now

Maybe the rain will stop following me  
With millions of colors reflected in daylight  
Right on the kickdrum  
Turning the sound up full

Another alone on an everyday night

I think in the morning I think I'll be alright  
Watching the blood flow  
No wonder I don't know why

There's a woman in the mirror in a fiery state  
She motions to me I start pulling away  
She's lifting her dress up  
All the way up

Oh don't look surprised  
Erased  
Our lives  
Erased  
Our lives  
Erased
