Burn it to the ground!

Light the lights, we're back on track  
Tonight's the night, full speed ahead  
We came to here, to show our strength  
Chose for the dream, and not for death  
Buckle up, we're on the roll  
Burning bright, out of control  
Move around, the flame is on  
Light the torch, and burn this place down  
We're holding ground, no chance to break what we're  
build up  
Don't waste your time, we can't be stopped  
Raw as hell, through flesh and bone  
Hard enough to stand alone  
So have you noticed, we're here to stay  
Not in a lifetime, we are going to walk away  
So brace yourself when we shoot another round  
We'll drive it to the max, we'll turn it inside out  
Burn it to the fucking ground!
