In tune, on track, ready to roll!

Enter the chambers of fortune and favours
Total control, ready to roll
Thunder and lightning, tonight is thriving
Smash in the doors, we've come for more

Prospects are bright, it's time to shine
These blinding lights will light us by
We won't back down, forward we go
Leave none behind, we're in control

We make it right, we keep it real
We're double driven to reveal
The hidden truth behind what's real
Tonight's the night, today's the day
We overwhelm and overtake
Seems like there's nothing more to say

Relive the ages of celebrations
Rejuvenate, we've got it made
This feeling makes us as sharp as razors
We cut it loose, define the truth

Enter the chambers of fortune and favours
Total control, ready to roll
Thunder and lightning, tonight is thriving
Smash in the doors, we've come for more
