Pressure gets high, from deep inside
Last call, good night, I close eyes
Won't be misleded, won't be defeated
We keep repeating the sign of the times

Reach for the sky, or even higher, higher and higher
Reach for the sky, the starry night
Might feed the fire, to burn the statues, we all admire
Are we all liars? This world ain't big enough to fulfil our desires

We take it high, we keep it low
Are we the only ones alive?
It seems there's nothing more below
Why should we stop and wonder why?
We make the whole damn thing explode

Is it the sound of battlecries, is it the fire in their eyes?
Ideals and dreams have come to fall, it's all for one
and one for all
Wrong bet, hard luck, right in the middle we are stuck
Sign of the times where we belong
This life goes on and on and on

Last call, good night, I close my eyes
Won't be misleded, won't be defeated
We keep repeating, we keep repeating
The sign of the times, the sign of the times

We take it high, we keep it low

Last call, good night, I close my eyes
Won't be misleded, won't be defeated
We keep repeating, we keep repeating
We make the whole damn thing explode
