These words are swimming in my mouth
And I'm just dying to let them out
To gauge your initial reaction

I feel the same
When you look at me that way
And I know it's true
When my heart it beats for...

You're without a doubt
What my songs are all about
I'm not denying that I'm trying
Just to make you see that

I'm not gonna let go
That's not how this song goes
(You're eyes are so inviting)
How could I ever let go?
Tell me how. Do you know?
(You are so hypnotizing)
And I could spend my whole life with you

Girl I don't even know your name
But you're still driving me insane.
Would you hold it against me
If I said what's on my mind?

But who's to blame
When you make me feel this way
And I know it's true
When my heart it beats for

You're without a doubt
What my songs are all about
I'm not denying that I'm trying
Just to make you see that

I'm not gonna let go
That's not how this song goes
(You're eyes are so inviting)
How could I ever let go?

Tell me how. Do you know?
(You are so hypnotizing)
And I could spend my whole life with you

You're without a doubt
What my songs are all about
I'm not denying that I'm trying
Just to make you see that

I'm not gonna let go
That's not how this song goes
(You're eyes are so inviting)
How could I ever let go?
Tell me how. Do you know?
(You are so hypnotizing)
And I could spend my whole life with you
I could spend my whole life with you
I could spend my whole life with you
