Don't get pissed, and I'll show you yours  
Take the time to show me mine  
Who and why is bombing El Savador  
We who are not like others  
Your the art we love to hate  
Keep on reaching, till you reach a new low  
We're not sober so what

Floorlord-Floorlord  
Not getting up until there's a reason to be pour one  
more  
I'm happy for you, I'd rather be happy for me

Doesn't take a genius  
To realize you're an idiot  
The great controversy, right or wrong goes on  
Smell the year in the shag  
Morning air makes me what to gag  
Perception is reality, how do you see  
Who's driving paints a pretty picture don't it

See your halo shinning  
And all the detached plastic smiles  
Happy drunks it only seem to start that way  
Can get past the second step  
On the burning ladder of success  
Die-n-schmie-n the only thing killing me is time
