Never turn your back on me, you've made one more
mistake
You're breaking down the boundaries, that we create!
Don't hide behind your words! You've said too much!
This was too much to take
I'm never gonna make the same mistake again and I...

I'm taking over
Thanks to you
I'm taking over
Thanks to you!

Bring back all the memories before you fade away
(before you fade away!)
I needed you but this won't go, won't go away
Don't pray for forgiveness cause it's never enough
This was too much to take
I'm never gonna make the same mistake again and I...

I'm taking over
Thanks to you
I'm taking over
Thanks to you!

You try to bring me down but the same thing's
happened to you
And no one gives a f*ck

We've done this time and time again...
This never had to happen!
The suffering ends before I go
Now go ahead and take a bow

And I...
I'm taking over
Thanks to you
I'm taking over
Thanks to you!
