I'd like another lesson about sex please
cause the one I got at school was pretty poor
I'm starting to believe I might be crazy
I'm seeing things noone else can see, I need to find a
cure

They don't learn about it from their teachers
and they don't learn about it from their parents when
they get home
they're learning all about it from the videos on their
mobile phones
gender roles (he commands, she blows + adolescent
minds
= a warped quid pro quo)

So let's call this what it is
because we've clearly lost the fucking plot
and if we don't solve this soon we're gonna sacrifice
the lot

Taking little girls to see Christina
and fathers giving FHM to their 13 year old sons
we find this shit on playgrounds where the children are
supposed to play
'it's harmless fun' they say
and it's here to stay and if I don't like it I must be gay

So let's call this what it is
because we've clearly lost the fucking plot
and if we don't solve this soon we're gonna sacrifice
the lot

Little girls with the Playboy bunny branded on their
fucking pencil cases
logging on to find out what they need to do to please
the boys
they're under so much pressure to pretend they're
already there
If the parent's knew? If the parents knew would they
even fucking care?

So let's call this what it is
because we've clearly lost the fucking plot
and if we don't solve this soon we're gonna sacrifice
the lot
