Miracle from east
Miracle promised

I can chase away the shadows
I can take it through the night
If we're staying close together
I will make you see, I will make you see

Miracle from east
A miracle promised
To bring heaven down

Miracle from east
Miracle promised
To bring heaven down

I follow to the gloomy meadows
Be thy will your world of dreams
If we're staying close together
Only you and me, only you and me

A miracle from east
A miracle promised
To bring heaven down

Miracle from east
Miracle promised
To bring heaven down

Voyage autour de la Terre
(To bring heaven down)
Voyage dans la stratosphère

Boum la Terre, il n'y a plus rien à faire
(To bring heaven down)
Boum ! Boum !
