Little sister, mama, you have grown
You send me rocking like a knockout low
It's hard to handle, you outrace/outface me
Sixteen candles drives me crazy now

Little sister, you got 'normous eyes
But they not showing her fantastic lies
Before I kiss you let me first say
I wanna wish you happy birthday now

Family delight
At night

Little sister, such a precious pearl
Why don't you let me show you to the world
You hold a power to enslave me
A brand new flower here to save me now.
