"Feel You Near Me"

Visit "[Feel You Near Me](#)" on MotoLyrics.com

Just been walk around in circles
Nothing's happened for too long
Haven't been around at all
Dunno what's going on

That day will soon be over
A day just like the day before
Why go on just waist your time
All we're longing for more
Do you care

I can feel you near me
I can feel

There've been times I tried to call you
And times I tried to write
But I just looked into the dark
All through the night

Why should I go on pretending
Go on and play this game
I've tried I can't forget you
Do you feel the same
Do you care

I can feel you near me
I can feel.
