

## Secret Service

### "Heart Companion"

Visit "[Heart Companion](#)" on MotoLyrics.com

You took my money, it's all right, all right  
You made the rules and they're hard to beat  
Some say it's funny to see tide all night  
And keep you cooling on all resist

But ending up the loser is part of the game  
You're betting in the sunshine I end up in the rain

Heart companion - running like a child  
I used to love you madly, I used to love you wild  
Heart companion - always in the debt  
So easy to remember, uneasy to forget

You stand this desk up in moonlight, moonlight  
The choices noise but it's part to blame  
To try this music is all right all night  
It's silent tune like the time will fakes

Stay just a minute for the sake of the song  
What hard ??? be a right thing but why should it be  
wrong

Heart companion - running like a child  
I used to love you madly, I used to love you wild  
Heart companion - always in the debt  
So easy to remember uneasy to forget.
