Questions never described
I'm on my feet and flying high
That is a lie
If you know what I mean
Just stand up and tap the tambourine
Sign on to the team

Time is right
And no one's ever wrong
At least not all the time
Late at night
I wish I knew today
What else I left behind

It's just that if I try
Never give it up
If I try
Holding on to you
Won't you tell me not to worry
If I try
Never give it up
If I try
Would I lie to you?

Answers running around
I'll pay the cost to turn them down
If they are found
Outside-mapping the stars
Diamond girls are playing cheap guitars
Showing off their scarves

Rendez-vous
And I'll be seeing you
If you don't stop and stare
After you
I think I'd rather stick around and play in here
