"The Sound Of The Rain"

Visit "[The Sound Of The Rain](#)" on MotoLyrics.com

In the sound of the rain
In the sound of the rain
I remember everything

When I drive trough the city
??? take you walk in the night
All the places we've been to
Through the long summer nights

When the clouds are in the sky
Comes that feeling deep inside
In the sound of the rain
In the sound of the rain
I remember everything

When we ran to find shelter
We came in from the cold
In my arms close together
Why did we left it cold

When the clouds are in the sky
Comes that feeling deep inside
In the sound of the rain
In the sound of the rain
I remember everything.
