Annie wakes up one morning
Golden downfall of hair on her chest
Sparkle her pupils
Diamonds of cheat and malice

Every night 1000 eyes are slaves
I know you like it
Your puppets crawl around the luxury
I know you like it

Beauty and power are eyes of the same face
Entrapped in the mirror
You've chosen to play with fire
Your heart turned

I remember your words
With class and grace you raped my senses
All I got is yours, all you wish is me

Beauty and power are eyes of the same face
Entrapped in the mirror
You've chosen to play with fire
Your heart turned

Love again, I will help your heart in cage
Time has come for you to love me
I know you can

Love again, don't you know your heart's in cage
You don't think the words you're saying
I must set you free
From this 1000 eyes' show

You betrayed, your lips, your body
I see my hands are chained
You got the keys, baby
My love till death, my cage, I'm blind
Mistress of desire

Love again, I will help your heart in cage
Time has come for you to love me
I know you can

Love again, don't you know your heart's in cage
You don't think the words you're saying
I must set you free
From this 1000 eyes' show

Between fire and ice I live now
In this sleepless night my sweat
As holy water, sanctify the sacrifice

You come into my nightmares
Imploring me to set you free
I swear I'll be your savior
Into these arms you'll sleep

Love again, I will help your heart in cage
Time has come for you to love me
I know you can

Love again, don't you know your heart's in cage
You don't think the words you're saying
I must set you free
From this 1000 eyes' show
