I remember the day when the sky was grey There was nothing to do Than I saw you You cannot imagine how it was for me I have no words to say but don't worry cause

It's just a moment in this time It's just a moment you are mine and we'll see what gonna be

I want you to keep me in your heart But you denied I'm nothing for you I can't believe that this is true and I don't want to argue

It was a moment in that time It was a moment you were mine And I have to see how it is to be

It was a moment in that time It was a moment you were mine And I have to see how it is to be

It was a moment in that time It was a moment you were mine And I have to see how it is to be alone
