I'm feelin' so bad  
Friends are not my friends  
I was one time in love  
But now I'm ashamed for that

Not everything is like it seems to be  
Nothing in this world is like it seems to be

Everything is changing  
Nothing stays the same  
Everybody is changing  
Like you before the aim

Can I trust somebody  
Everybody is leaving me  
Why do they do this  
They don't understand me

Not everything is like it seems to be  
Nothing in this world is like it seems to be

Everything is changing  
Nothing stays the same  
Everybody is changing  
Like you before the aim

I am what I am and nobody will change me
