Life is so hard
It hurts to make decisions
when you really don't know
if it is right or wrong
Life is unfair
When you've tried everything
but nothing succeed
But life's too short to be sad

Take your things
pack your bag
and make a new beginning

Life is so loud
When you need to have silence
to concentrate on things
than it is too loud
Life is unsafe
When you walk along the street
You don't know what's up
But life's too short to be sad

Take your things
pack your bag
and make a new beginning

Life is so nice
When you walk across the park
and rejoice in the sun
and the nature you see
Life is joyful
If you see other people
laughing and joking
Life is too short to be sad

Take your things
pack your bag
and make a new beginning
