"Come Back"

I did it for you
Every day
What have I done
To make you change
You should have seen my face
When I walked away
And you left me with all this pain

Do you think that we could just be friends?
Do you think that we'll make it in the end?

Will you come back
Will you come back
Don't leave me waiting
Will you come back
And would you stay with me

It's just not fair
How you're still with him
I always thought we would be forever
I should have seen your face
When I walked away
I couldn't care less if you felt any pain

Do you think that we could just be friends?
Do you think that we'll make it in the end?

Will you come back
Will you come back
Don't leave me waiting
Will you come back
And would you stay with me

You make my heart beat

Will you come back
Will you come back
Don't leave me waiting
Will you come back
And would you stay with me

Will you come back
Please come back
Will you come back
Stay with me
