Birds sing of lullabies
And guide you to the orchard when you die
Should boredom arise
Spend time with the wildlife

Waking up to sounds
May cause you to take a look around
Entertain your friends
With audio of dead relatives

If you spend a lonely night
Thinking about the people in your life
Just turn off the light
You've done that a thousand times

Waking up to sounds
May cause you to take a look around
Entertain your friends
With audio of dead relatives

Teenagers are spending time out on the edge
I am spending most my time sleeping in my bed
The birds are singing from the trees
I listen to their melodies

The birds are singing from the trees
I listen to their melodies
