

Secret And Whisper "The Actress"

Visit "[The Actress](#)" on MotoLyrics.com

We recognize she's from in the movies
A moving picture, forget your real life and disappear
The regular showing has just begun
Please tend to your seating with everyone

We see the actress defy the dangerous
Our stomach in knots, the edge of our seats as we
watch
The regular showing has just begun
Please tend to your seating as everyone is slowly
quieting

When it's all over we will talk and return to our cars
Just for one night, you are my only
Just for one night, I won't be lonely
You are my life
Your star burns bright
