The lady of miracles commands the river
Today we saw her bathing in the nude
We will watch her celebrate the moon

Tell me of the earth
Tell me of your secrecy
Passed down through the ages

Tonight I try to stay away from you
Lady of the Northern Star
Tonight I try to stay away from you
And watch you creep through your yard

Be ready for anything beyond the borders
The younger cats have come to tear away
Tonight they hunt their prey and it is you

Tell me of the earth
Tell me of your secrecy
Passed down through the ages

Tonight I try to stay away from you
Lady of the Northern Star
Tonight I try to stay away from you
And watch you creep through your yard

To the youth
To the end of
To the youth
To your teenage fantasy

Tonight I try to stay away from you
Lady of the Northern Star
Tonight I try to stay away from you

The lady of miracles commands the river
Lady of the Northern Star
