Refrain:

Eye and I alone, the world is fuller

Fire

The eyes reminisce with I

Is a kingdom on by

Fire

Everywhere I look I see mi eyes

Lookin in the world through the oldest skies

The eyes reminisce with I

Is a kingdom on by

Fire

Long gone way, before you better gone so

If a new day, self confidence

Wicked is real, your body working also

Must fight, deading you

Enough say you

Move on straight

Long enough

But you better be not afraid

Times are off

And it's a mighty long way

To know what life is all about

Fighting and deading you

You no fear and don't try

Take ma axe and then you comin by

Is there any trace in your face

Do you know somebody somehow

This is how the story goes

Refrain

Welcome to about we

We realize like drowning

I sense connection

Someday someways affection

We walk my dreams

My darling in taste getting harder time

My track screams "who fair you"

You no fear and don't try

Take ma axe and then you comin by

Is there any trace in your face

Do you know somebody somehow

This is how the story goes

Refrain
