My love let we be together
And make a change for the better
Outside is an easy weather
But inside I feel so cold.
Woh yoh how sweet tastes your lover
Something new you must discover
Shades of brutality
But still I walk upright

1. Verse (Demba):
I surf the world with "Dia" through the red sea
In double sence bubble plans someone calls me from
far away
Let me stay to hard my back for the day after.
Where camels walk the sunspeed i ride the deserts
heat
Bringing ancient water overdubbed impressions lost in
the way back in time.

Bridge
Laughter filled the air before you desided
Dust is on you chair since weve been devided
Cold is my face in the morning when I get up late
After a dreamless night.
My love let we be together
And make a change for the better
Outside is an easy weather
But inside I feel so cold.
Woh yoh how sweet tastes your lover
Something new you must discover
Shades of brutality
But still I walk upright.

2 Verse (Frank):
You the only gial that make mi blood boil up hot.
My heart skip a beat, no wanna stay inna spot.
A girl like you me get once in a life
Youre leaving down here, on a dusty chair.
Everything is oh so grey the night don't wanna become
a day
Where are you ? OH
I always think of times we had before.
Come let us stay together

Bridge
Laughter filled the air before you desided

Dust is on you chair since weve been devided
Cold is my face in the morning when i get up late
After a dreamless night.
My love let we be together
And make a change for the better
Outside is an easy weather
But inside I feel so cold
Woh yoh how sweet tastes your lover
Something new you must discover
Shades of brutality
But still I
