"Your Eyes"

Visit "[Your Eyes](#)" on MotoLyrics.com

How can I believe,
Everything you say to me?
You tell me not to worry,
"Nothing's gonna happen with him."

And my heart falls onto the floor.

You make my heart beat,
Your everything to me,
I wish I could make you happy.
And when I'm with you,
There's nothing can do,
I guess I will always love you.

How can I believe,
Its anyone, not me.
My jealousy is wrong,
I should have listened all along.

And your eyes, they sparkle in the night.

You make my heart beat (You make my heart beat),
Your everything to me,
I wish i could make you happy.
And when I'm with you (When I'm with you),
There's nothing I can do,
Guess I will always love you.

You make my heart beat (You make my heart beat),
Your everything to me,
I wish i could make you happy.
And when I'm with you (When I'm with you),
There's nothing I can do,
Guess I will always love you.
