"Oui Love You"

Visit "[Oui Love You](#)" on MotoLyrics.com

If you look into my eyes and tell me that you love me,
I would be the happiest girl that u could ever imagen.
You should know it by the way that i act around you,
I love you (yeah i do) I love you.

I knew it, from the very first day that i met you,
that i was gonna fall inlove and never let go,
if you should love me in the way that i love you,
we should be happy for ever and ever

If you look into my eyes and tell me that you love me,
I would be the happiest girl that u could ever imagen.
You should know it by the way that i act around you,
I love you (yeah i do) I love you.

People say that i should hate you,
that there are plenty more fish in the sea,
but your the only fish that i really want,
I will never not love you.

If you look into my eyes and tell me that you love me,
I would be the happiest girl that u could ever imagen.
You should know it by the way that i act around you,
I love you (yeah i do) I love you.

If you look into my eyes and tell me that you love me,
I would be the happiest girl that u could ever imagen.
You should know it by the way that i act around you,
I love you (yeah i do) I love you.

I love you yes i do,
I love you
