Catch me in the city riding hard through the B.X  
Catch me in the city riding hard through the B.X  
Chain all vs, I ain't with the bs

I do it all for the bx, north Bronx, south Bronx, I'm all to  
the bx  
Do me a favor, don't get lost in the bx  
Especially if you a nigga that's soft in the bx  
We real niggas, move cautiously  
They say the loudest nigga in the room is often weak  
You gotta watch for the nigga that don't over speak  
He'll prolly have your body floating in north... beach  
Now jay made the Yankees hat more famous than  
Yankees game  
I've seen niggas get shot not a block from the Yankees  
game  
Think you just gonna come here and do what you want  
Think again, aiming at your Yankee hat, won't be able  
to think again  
Shit real out here, boy, get your ass killed out here boy  
Even know shit for real out here boy  
I'm still out here boy  
And you can

I live for the Bronx, ask about me, they'll tell you that he  
is in the Bronx  
All I'm tryina do is do it big for the Bronx  
And in 20 something years I'll get up big in the Bronx  
2 things we like to do is fuck chicks and stash bread  
Pop shit in this barrel, you better have some fast legs

Yeah them young Bronx niggas will beat you till you  
half dead  
Get your head cracked like a city ale in crackland,  
crackland?  
Niggas acting like they didn't know  
That the Bronx is a place where you shouldn't go  
Unless you got a nigga like me with you  
That they respect and be happy to see with you  
Shit real out here, boy, get your ass killed out here boy  
Even know shit for real out here boy  
I'm still out here boy  
And you can
