"Master Plan"

Visit "[Master Plan](#)" on MotoLyrics.com

See if you ain't got a plan, you ain't got nothing
Everything starts with a plan
I only talk facts

[Hook] x 2

I got this master plan in my head,
You already know where them mobs, getting bread
I got it mapped out, I know how I'ma get it
I know how much you stashing, I know how much I'm
spending

I got this master plan on my mind
To get this money, shit this about time
It ain't complaining nigga, this about grind
This about nobody else life, this about mine
Illegal money good, but they giving out time
See the feds came twice, garl was giving out signs
Hustled a little weed, I was giving out dimes
But I could make more just from giving out rhymes
So that's what I'ma do, the money gonn come
The fans say when I rap feel like I'm talking bout them
That shows me that I ain't the only one, with plans of
beating the odds
To even out on my funds
I am not a fool, I strive to get me through
While I was stack on crew, I provide you with the truth
While I'm vibing in the booth, I'm tryina get this loot
Enough to dive in like a pool

[Hook] x 2

I got this master plan in my head,
You already know where them mobs, getting bread
I got it mapped out, I know how I'ma get it
I know how much you stashing, I know how much I'm
spending

Now once this master plan is executed
And they label him as one of the best to do it
No title on his waist but still he's undisputed
And the haters that was loud, before, it's muted
I'ma smoke a L, think hard and sit back

The hood gave me hard so it's right I give back
Look out for my fam, take care of my bros
Take care of my goons, take care of my foes
I'ma talk facts on every one of my albums
I can see you now performing in front of thousands
Pictures, autographs, got the public wailing
And all this started with living in public housing
Got a story to tell and people wanna hear it
Hopefully they iTunes download it and share it
And once I'm at the top, I'll never get too comfy
Cause them bills still gonna be due monthly

[Hook] x 2

I got this master plan in my head,
You already know where them mobs, getting bread
I got it mapped out, I know how I'ma get it
I know how much you stashing, I know how much I'm
spending.
