[Hook]

I'm about to pull up, pull up, aw  
Different sandwich over here, be aware  
When you see the gang pull up, pull up, aw  
Walk up in the spot, all eyes on me  
First thing they say warrup, aw  
Twisting up my fingers in the air, don't be scared  
We just throwing our hood up, up  
I'm about to pull up, aw  
I'm about to pull up, pull up

I'm about to pull up, first stop, gas station  
Nigga gotta full up, hit the hood, warrup  
Stop on the half, it's cops on the ave  
Me, I've made it, but I still get props on that  
Shit, I earned everything I got on the ave  
So a nigga get swept up and murked on the ave  
Right after the nigga got gop on the ave  
And that's probably while most of you niggas not on the  
ave  
Niggas used to get dropped on the ave  
So the cabs ain't never wanna stop on the ave  
Niggas used to be popped on the ave  
They rims broke so they dishing the rock on the ave  
When is this shit gonna stop on the ave?  
It ain't a game, it's black ops on the ave  
Them young boys have stock on the ave  
And it's sad cause the feds had to drop on they ass

Man I saw so much shit on the strip

It will make you never wanna take a trip on a strip  
Saw a fiend sell a child for a hit on the strip  
Ever seen a body bag get zipped on the strip  
Gang members yeah, they sit on the strip  
And if a blood ever see another crip on the strip  
If he ain't got that thing on the hip on the strip  
Oh man, somebody getting hit on the strip  
Gotta be fully equipped on the strip  
Drive by boy, you better have some tense on your shit  
Cause if a nigga get a glimpse on your chin  
On man, somebody getting hit once again  
I'm asking questions to the man as I look up  
Like why do niggas choose to take the battle, give the  
good up  
It's crazy after seeing all that, I still ain't shook up  
I'm on my way back home now, so tell them
