No survive

Unborn child

Cut to piece

Left without a name

Unwanted because of the problem of humanity

Unspeakable crime

Silent war is the name of the game

Millions are dying in actions of death and pain

Misguided mothers make this happen

Sometimes for a financial situation

Or a sexual mistake

CHORUS

Massacre of the unborn

Massacre of the unborn

Massacre of the unborn child

Innocent blood cries in vain

Defenseless lives are slaughtered everyday

They should make a law against this insanity

Unborn corpses are growing in extreme quantity

Premature stage

Slowly destroyed by the human race

Tortured by tyrants  
Unjustly demise  
Infant children  
Are left to die  
Just innocence lives they slay  
There is no chance to escape  
Murdering in the matter of this case  
A merciless torture to take  
No one will live, because they won't survive  
There's infants dying  
Can't you see  
That they will not have a chance  
Of growing up in this life  
CHORUS  
Massacre of the unborn  
Massacre of the unborn  
Massacre of the unborn child
