(Chorus) Planetary 2x It's the land that I love, God bless
America Puerto Rican heritage, Hip-Hop's the culture
We live life by the code of the street This is us in the
flesh, OS, 'American Me' [Planetary] Yo, one nation
under God, indivisible Have seen the lavish loss,
invincible Trying to find a path that's righteous Half my
life is spent trying to find who Christ - is I live in a
country you can't sit comfy I dance amongst thieves so
one chance amongst me One life that seeks salvation
find my freedom Wit four lives I'm meeting at home I'm
bleeding So I work 9-to-5 two times a day Allow my pray
building trying to find a way Trying to find an answer
and control my battles But there's thin line between
making money and talent There's only so much that I
can sit hungry and malice There's only so much rhyme
writing 'fore my hand get callous Now some of my
niggas don't understand my hustle (Why?) But this is
real life my nigga, don't step in the puddle Cuz wit this
life here, you might drown in fear What you know about
pounds of tears, drowning beers America the beautiful,
you treat me so cool It ain't love loss; I just put love a
whole now (Chorus) Planetary 2x [Crypt the Warchild]
It's now time to uplift my people Give you a voice of
clear thought I wanna give my people Give you choice,
real talk, I wanna give my people I'ma start the
revolution, be the one to lead my people We gon' do
this from Vieques to the South Bronx North Phills,
Southern County, ready when the time comes All
across the globe we ready cuz their time's up And we
been waiting too long to let these .9's bust They wanna
lock us up and throw away the key They wann box us up
and don't say it's me So In God We Trust and it's the
way to be Because my mind is corrupt from all the
slavery I got issues wit fate, the pistols will wait The
whip that's following me got municipal plate And I'ma
high school dropout but I'm fit to debate I know my
mothafucking rights so put your pistols away Always
got love for a nigga if he busted a cop Cuz I ain't neva
get ova them cuffing my pops Ten years of my life I
inherited pain It's the 'Point of No Return' cuz it ain't
neva the same That's why I neva take a trip down

memory lane I change the path wit the present, let my
legacy reign foreva... (Chorus) Planetary 2x
