"In My Blood"

Years pass, and in the distance a dream will die or
come alive.
So in time it leaves me restless. Gotta' make it right.
So much time spent tryin' to find my place in life.
All that i wanted was to be the voice in this eternal fight.

I am, I'm alive.
so i live my life before i die.

Stand my ground, won't compromise.
Come out of darkness to find serenity within the light.
All that i needed was to breathe the music that I bleed
inside.

So it goes there's a passion in every soul that shapes a
mold.
A time to grow to sustain, no one can take that away.

I am, I'm alive.
so I live my life before i die.
I am, I'm alive.
Well i stand my ground, won't compromise.

Come out of darkness to find serenity within the light.
All that i needed was to breathe the music that I bleed
inside.

I am, I'm alive.
so I live my life before i die.
I am, I'm alive.
Well i stand my ground, won't compromise.
